

TECHNICAL DATA SHEET

Setteveli Feature Wall

Product type

WIPEABLE WATERBASED INDOOR PAINT

Setteveli is a refined paint with a textured pearl finish designed for feature walls. With a choice of golden or silvery tones that blend into a range of colours leaving a defined rough textured reflective effect.

Areas of application

Setteveli has been designed to be a feature wall in interior spaces and can be applied on substrates made from gypsum plaster, particleboard etc. We recommend applying Setteveli by brush.

Special properties

Setteveli is entirely water based which makes it eco-friendly and safe as well as odourless. It is fast drying which allows for projects to be completed faster. Its pearly pigment and texture creates a unique luxury textured effect which is easy to achieve with Setteveli paint.

Surface preparation

The substrate which is to be painted should be clean, dry and dust-free for good adhesion. Prepare surface as per our decorating advice. Glossy surfaces should be sanded to matt. Newly plastered walls should be allowed to dry, this may take up to 4 weeks. We recommend applying a base coat of 50% water, 50% white matt emulsion for newly plastered walls as well as for walls which currently are painted a darker shade.

Application information

The paint is ready to use (ensure goods are stirred thoroughly before use). Apply using a coarse brush. Setteveli can be applied using a variety of brush strokes to create a unique and personal pattern. When applying tinted paint always try to apply complete areas with paint from the same can. The paint contains a pearlescent pigment and will leave a textured finish. We recommend 2 coats of paint for this product, check for full coverage after the coating is completely dry. Please refer to our video tutorial on our website for full details.

Coating conditions

Apply under controlled conditions, where air, paint and surface temperature should never be below 10°C and above 50°C. At very high humidity the drying time will be longer.

Wipeable Feature

One of the major benefits to our interior paint is that it is entirely wipeable. This means that, should you need to wipe off any marks or scuffs you can do so. All you need to accomplish this is a soft sponge and warm water. Softly brush the wet sponge over the marks on the painted wall and watch them disappear.

TECHNICAL DATA SHEET

Technical Data Sheet

Covering	Depending on type of surface, 5-8 m ² /litre
Density	1.030 ± 0.030 kg/dm ³
Thinner/cleaner	Ready to use
Application	Brush
Drying time	Touch dry 1 – 2 hours Recoat 4 – 6 hours At 20°C and max 80% humidity
Finish	Pearl textured wall paint in silvery or golden tones
Storage time	18 months, with temperature max of 38°C, in unopened sealed can, indoors and protected against freeze.
Packaging	1 litre, 2.5 Litres, 5 Litres
Cleaning	Wash equipment with water immediately after use

Individual safety

Avoid skin and eye contact and inhalation of dust and spray mist.

Keep out of reach of children.

This product contains < 10g VOC/L.

Environmental protection

Do not allow into drains or water courses.

Dispose in accordance with regulations from authorities
